“Blessed be the LORD God of *Israel*; for He has visited and redeemed *His* people, And raised up an horn of salvation for *us* in the house of His servant David; as He spake by the mouth of His holy prophets, which have been since the world began; That *we* should be saved from *our* enemies and from the hand of all that hate *us*; to perform the mercy promised to *our* fathers and to remember His holy covenant; The oath which He sware to *our* father Abraham, That He would grant unto *us*, that *we* being delivered out of the hand of *our* enemies might serve Him without fear, in holiness and righteousness before Him, all the days of *our* lives.” Luke 1: 68-75;

### CHRISTIAN PATRIOT'S DEFENSE LEAGUE/ CITIZENS EMERGENCY DEFENSE SYSTEM INTELLIGENCE REPORT - August 1986

*Brig. Gen. Gordon "Jack" Mohr, C.E.D.S. National Military Coordinator*

113 Ballentine St, BAY ST. LOUIS, MS 39520. Used by permission.

As many of you know, I have been in the hospital having a defective PACEMAKER replaced. Then spent the next week at Scriptures for America BIBLE CAMP, (Pete Peters) Wondervue, Colorado. Of course when I arrived home I was greeted with two weeks of "piled up" mail. All orders have now been filled, however, a considerable amount of correspondence will have to wait while this **INTELLIGENCE REPORT** is written and sent out. It is of such importance that you need to know about it immediately.

Some of you have obtained information which was received from a "high ranking" Republican leader in Texas, to the effect that Mr. Reagan may resign from the Presidency before the end of 1986. This of course would put the One-Worlder, CFR "puppet", George Bush in the driver's seat. Could this possibly tie in with reports coming from Washington, DC that some high ranking legislators are working on a plan for "complete accommodation with, and/ or surrender to the Soviet Union by the end of 1988?"

While this might seem incredible to the average decent American, it becomes more plausible as events unroll. Rousas John Rushdoony, one of the foremost Christian Apologists in America and a key leader of the Christian Reconstruction Movement, claims to hold proof that on April 5, 1986, the Soviet Union launched six SS-20 Missiles against targets in the U.S., these missiles penetrated our defenses and were blown up by the Russians as proof that it could be done. According to Rushdoony, our government has been given until the end of 1987 to complete their surrender. These developments have led several key leaders to begin to claim that our government has already covertly surrendered.

Bill Bowen, author of **GLOBALISM; AMERICA'S DEMISE**, was in a meeting at Faith Baptist Church, Louisville, Nebraska (Everett Silven's) when Rushdoony made this startling statement. Here is the scenario he envisions, as written in **THE OMEGA LETTER**:

"The Soviet Union is presently at her peak. However, due to weather cycles and her northern geographical location, she is due for a 'mini-ice' age which occurs every 100 years. This would bring her to the verge of economic collapse, and famine within the next few years. So the Soviets must move militarily now or face an internal economic collapse. Their advantages in moving now, according to Rushdoony are based on their present military superiority and their advantage in the 'Star Wars' race. According to Rushdoony, the space probes that are not making it into space have not been aborted but have been destroyed by "space-based" Soviet Star War technology.

As mentioned, Mr. Rushdoony claims to have proof that on April 5, 1986, six Soviet SS-20 missiles were fired against the U.S. and were then destroyed after entering our airspace, to show us it could be done. This was accompanied by a Soviet ultimatum to surrender before the end of 1987 or face nuclear annihilation."

When Mr. Rushdoony was contacted, he explained that his sources were two U.S. generals, one of whom is still on active duty. However, he refused

to discuss any of the above information. But it is interesting to note that this information is receiving confirmation from another usually excellent and reliable source, the **PATTERSON STRATEGY LETTER** (P. O. 37812, Cincinnati, OH 45222).

A recent issue of this report says: "There is only one way to explain away the cryptic actions of Ronald Reagan - and that is to assume that a nuclear strike threat has already been received by the President. Any attempt on his part to reveal the truth to the public could, in fact, precipitate the attack! Thus, official silence would be unavoidable. If this be the case, we will have to be prepared for the gradual loss of freedom which lies ahead."

Patterson claims that "the evidence is unmistakable and accumulating daily." He further argues that "the evidence points to the reality of the Soviet-Trilateral-Combine forcing the United States through a process of 'covert surrender' by 'covert surrender'. I mean that it would never be admitted to the American people. Indeed, the secret would be kept by the Administration to avoid nuclear annihilation! I felt this whole thing coming after the Marcos sacking by the Reagan Administration. Just consider these points:

(1) Citizens along the southern border are now up in arms and the federal government is paying no heed to demands for protection of life and property while armed terrorists are crossing our borders in larger and larger numbers;

(2) It is now clear that Reagan has abandoned his fight to aid the Contras. (I don't understand this statement- J.M.);

(3) South Korea is already in the process of destabilization;

(4) Pakistan now has its own 'Corey Aquino' to deal with;

(5) Why would Reagan agree to destroy three of our nuclear subs?

(6) Doesn't it seem strange that after many successful rocket launches, suddenly we would suffer a third failure? And now the Navy has reported two mysterious submarine incidents where some unknown force has jammed their radar, causing them to run aground."

The clincher, according to Patterson is a recent **WASHINGTON POST** article which revealed that "The Reagan Administration... is considering a revised plan that would shelter state and local officials while encouraging the rest of the population to rely on 'self-help' in case of nuclear attack.

According to this report, \$1.5 billion would be spent to protect federal, state and local officials while the rest of the population would get \$3.8 million worth of low-cost radiation detectors." Senator Proxmire, (D. WI) has pointed out this "appears similar to the Soviet defense system in that it protects Communist Party elite..."

This "rapid emergency" building of shelters, according to Patterson, confirms that the U.S. is indeed under the threat of nuclear annihilation.

Such a scenario is possible. But it does not seem necessary to explain the current situation that the U.S. finds herself in. In the first place, when there was no supposed "nuclear threat", the U.S. handed over the Panama Canal, Iran, and gave up on Vietnam. The State Department and the CFR/ TC combine have always pushed to see the surrender of the sovereignty of the U.S.

Sen. Barry Goldwater has pointed out in regards to this combine: "We stand in danger of losing (our) freedom - not to a foreign tyrant, but to those well-intentioned but misguided elitist utopians (CFR/ TC). This combine is intended to be the vehicle for the multinational consolidation of the commercial and banking interests by seizing control of the political government of the U.S." (I disagree with Senator Goldwater, that these men are "well-intentioned", I believe they know exactly what they are doing and why they are doing it. J. M.)

Rear Admiral Chester Ward, a former CFR member, has explained that "the most powerful clique in these elitist groups has one objective in common -

they want to bring about the surrender of the sovereignty and the national independence of the U.S." (This makes them TRAITORS, according to our Constitution Article III, section 3. J. M.)

It is also interesting to note that a "false nuclear" hoax has been openly discussed among globalist leaders as a possible way of scaring the "free world" into the need of a World Government. This "covert surrender" theory may well be a part of this plan to draw the U.S. into the New World Order.

While discussing the possibility of a Soviet attack on the U.S. it might be well to mention that the Soviet Union has carefully prepared to protect about 90% of their people from retaliation by the U.S. On the other hand we have no Civil Defense System! None whatsoever!

It is mind bending to realize that our public officials, knowing of this threat, have done absolutely nothing to prepare for it!

Before you say that it's impossible, remember that the media has worked for years to prepare us mentally to believe there was no need in preparing. They have been working overtime on our "will to resist." The average American believes that there is no use in preparing, or that the threat will never come, or that if it does, the American public will rise up in "righteous indignation," as we did in 1941 and will overcome it.

In 1981 a multi-million study was made which showed that if this nation spent \$47 billion on shelters we could have a 90% survival rate in a nuclear attack; this Administration spent nothing! Instead the Presi-

dent authorized a \$4.3 billion program to evacuate the cities. This was terminated because of lack of credibility. It just simply would not work. Now suddenly the government wants to spend tax dollars to shelter federal officials and “to hell with the rest of us.” After all these years of telling us we don’t need to prepare, now suddenly they say: “You better prepare and don’t expect your government to help you!”

What should this tell us? **THAT THEY HAVE BEEN LYING TO US ALL ALONG!** I’m angry and you should be too! I know our preachers tell us that Christians should never get angry, but on the basis of the evil that our government is perpetuating, I would believe that anyone who loved his God and this country should be angry most of the time! It’s time we sent a strong message to these **TRAITORS** in Washington which says: “Boys, watch your step! We are going to hold you accountable for the mess you are causing.” We can now see why Will Rogers felt like he did many years ago, when things were relatively quiet.

When a friend told him that Congress had adjourned, he was reported to have said: “Thank God! Now the country will be - safe for a few weeks!”

When I think about the government spending my money to protect the likes of Edward Kennedy or Alan Cranston, who by their actions have proven themselves liars and traitors, it makes me even more angry!

An article in the Washington Post stated that between \$70 and \$80 billion would ultimately be spent on 3,400 government shelters ...for the officials. Not for you, stupid! (That’s what was originally to have been spent to protect all of us.) This article said: “the shelters will protect land records!” so that nuclear war survivors can retain and demonstrate ownership of property that is not destroyed!”

This statement in itself should tell you that there has been extensive government planning for a long time now, to protect their hides, but not ours. I always thought that was the job for Congress, to provide for the **MUTUAL** defense!

On May 8th, 1986, Senator Proxmire, (D-WI) wrote a letter to the FEMA Director, Julius Becton, in which he admitted that the new government plan to protect its officials is very similar to that of the Soviets. In a telephone interview with the Washington Post, Samuel Speck, Associate Director of FEMA said the shelters were “not to protect the elite but to enable the government to assist the people during a nuclear crisis.” What a macabre joke! There will be no need to assist 90% of the population if this ever happens.

Isn’t it interesting? The Swiss are prepared! The Russians are prepared! and so are the Red Chinese, but the dumb Americans, led by their Christian religious leaders who tell their people they will be snatched away during this crisis, have sat back and done nothing!

I believe the time has come when we need some violent confrontation with the “wimps” we have sent

to Washington, who seem more anxious to perpetuate their power and please the Zionist Lobby, then they do in the protection of our people. (**APOLOGIES TO THE VERY FEW WHO HAVE REMAINED FAITHFUL!!!**)

It could very well be, and by this, I mean it’s Scriptural, to believe that much of this deception and underhanded government dealing is coming as punishment on our Israel people (the Anglo-Saxon, Scandinavian, Germanic and related peoples), because we have refused to obey His Laws and listen to His admonition. In Deuteronomy 28, God told our ancestors in Old Palestine that if they refused to listen to the voice of “the Lord their God,” and refused to do His commandments’ that several things would happen to them.

Among these were:

1. “The Lord will smite thee with disease” (verse 21, 22), Cancer, AIDS, etc.

2. “The Lord will cause famine to come on you as drought hits the land,” (verse 23, 24). Poverty amidst plenty? **CIM**

3. “The Lord will cause us to be defeated by our enemies (verse 25), Vietnam, Korea, Iran etc.

4. “The Lord will smite us with astonishment.” (verse 28), Suicide is one of the number one killers in America.

5. “The fruit of our land shall be eaten up by strangers,” (verse 33). See the alien plague which is destroying America. (As well as their wheat going to Russia. **CIM**)

6. “The stranger that is within us shall get up above us very high, and we shall come down very low,” (verse 43). Ask yourself about the alien government which has controlled the U.S. since at least 1943.

7. “They shall lend to us (usury)” (verse 44). Ask why it is that foreign nations such as the Israeli and the Third World nations, many of whom “hate our guts”, can get long term loans at 5% interest, while our friends, such as South Korea, Nationalist China, and South Africa are treated like dirt. Why the loans to our enemies, when our own farmers and small businessmen are going bankrupt by the tens of thousands?

Then in verse 47 we are told that because we, the Israel people have not served our God with gladness of heart and joyfulness, we will serve our enemies in “hunger, and thirst, and nakedness, and in want of all things: and he shall put a yoke of iron upon our neck...”

Is that what you want for America? (Or for Australia, **CIM**) **CHRISTIAN**, is that what you want for your children? Don’t expect God to take you out of this mess before this happens, for your Master, Jesus the Christ, told us on many occasions that we would be persecuted, and jailed, and killed for His name’s sake, before He returns. There will be no **RAPTURE** to take you out of the mess your own neglect has caused!

**TAPE OF THE MONTH**  
**1021a WITCHCRAFT IN AMERICA.** It is being practiced-seemingly in innocuous ways.  
**1021b ONE LAW FOR ALL THE LAND.**  
 A Biblical answer to all who say all religions are to be allowed in the nation.

What is the answer? Is there a FORMULA FOR AMERICA'S SURVIVAL? Yes! But it will not be in building bigger armaments; it will not come through the construction of "fallout shelters". It will come when you and I are willing to look at ourselves, through the magnifying glass of God's Word, and will repent of our sins and seek His face in repentance.

Then, and only then can the provisions of 2 Chronicles 7: 14 go into effect: **"IF MY PEOPLE, WHICH ARE CALLED BY MY NAME, WILL HUMBLE THEMSELVES AND PRAY, AND SEEK MY FACE, AND TURN FROM THEIR WICKED WAYS: THEN WILL I HEAR FROM HEAVEN, AND WILL FORGIVE THEIR SINS AND WILL HEAL THEIR LAND."**

Article I, Section 8 of the U.S. Constitution states that Congress shall have power to lay and collect taxes, duties, imports, and excises for various purposes, one of which is "to regulate Commerce with Foreign Nations."

Without adequate import duties, U.S. industries are exposed to any and all worldwide monopolies or financial forces that can be contrived and brought to bear. This puts American industry in the impossible position of having to compete with international traffic operating under a completely different set of laws, rules and regulations. It is comparable to baseball in which the rules are three strikes and you're out, but the opposing team gets four, five or six strikes.

Since this free market system will only work under its own rules, there must be safeguards against economic systems functioning under less free governments. A market is controlled by its cheapest supplier. Therefore, a tyrant with slave labor can undermine any market at least temporarily; therefore, well-regulated tariffs are necessary.

Today, Japan gives her industry various subsidies and tax advantages plus 100% depreciation the first year of tooling or modernization programs. U.S. Steel has closed down twenty-four plants, stating they could not afford to modernize in the face of foreign competition.

If they had the advantage of Japan's depreciation schedules, this year's tooling costs would have represented next year's profits.

### THE FARMERS

Let us examine the plight of our nation's farmers. In 1935 the government began to pay farmers to produce less. This was the beginning of the endless program of eliminating a farm surplus which was allegedly ruining farm markets.

From that day to this, the government has spent several hundred billion dollars toward the control of this pesky problem. It is still going on. Our present farm regulatory laws and related administrative policies are an expansion and extension of the plan origi-

nation in the 1930's. These programs have all been a *complete fraud! There is not and has never been a farm surplus!*

This great hoax was originally designed by a group of men in the USDA who were later identified as "The Ware Cell." Two of the most influential government policy planners during the Roosevelt years were members of that "Ware Cell," and also were the planners of farm and trade policies which have been used over the last fifty years.

Their plans are revered as if they were scripture. Those two men were Alger Hiss and Harry Dexter White. Both spent their years in government service undermining out the American free market system, and exerting the influence of their high offices toward serving communist causes. The axiom is: once a program is laid out by a communist, we will continue to revere the plan even though the planner is exposed.

Prior to World War II, tariffs were always promoted by the Republican Party. The phoney free traders were always around, and they finally got the upper hand in the 1930's. How did they finally accomplish it? After all, trying to get the average person to even give rational thought to the effects of tariffs is like trying to un-ring a bell! It's the results of fifty years of brain washing!

The program I'm referring to was laid out by Alger Hiss and Harry Dexter White in 1934 while they were both working in USDA.

The program was two-fold:

1. Pay the farmer to produce less.

2. Start a national propaganda program, that tariffs were the cause of all the nations and the world's ills and the panacea for all of those ills was to do away with tariffs.

### A DIRTY WORD

The program is still going strong. The propaganda says tariffs are **Protectionism**. What a dirty word!

Tariffs had to be branded with a stigma so bad that mere mention of the word would cause a negative reaction in the thinking of the average person. How well the program has succeeded!

The cry goes out when protectionism is mentioned - We don't want to get involved in another trade war! What a farce! We have been involved in a dirty, unfair, one-sided and prolonged trade war these last fifty years, and it makes anything prior to them seem like Utopia in comparison.

Let me give you a few examples. In 1880 the farmers in this country produced 970 hogs per 1000 people, whereas in 1965 they produced 273 hogs per 1000 people. We are importing more than 50% of the pork we eat today! (Perhaps that is part of the problem. If we were obedient to God's Law, NOBODY would be allowed to raise swine! CIM)

In 1880 our farmers produced 846 beef cattle for every 1000 people; only 549 in 1965. In 1880 we had 251 milk cows per 1000 people, only 90 in 1965. In 1965 we imported 156,000,000 pounds of wool. That is the equivalent of 18,000,000 sheep!

Several years ago there was nationwide publicity when farmers were pouring milk down the sewer and slaughtering their dairy herds. The government then provided a small milk subsidy. We were already importing over 50% of the milk products used in this country! This subsidy made dairying more profitable than any other farm operation, so many switched to dairying. Now while all of this was going on, the huge import's kept coming because there were no tariffs to stop them.

This resulted in hundreds of warehouses being filled with cheese! I know some people who have gone from one cheese hand-out line to another, acquiring arms full of cheese, and then selling it for anything they could get. I could excuse them easier than I could the perpetrators of this horrendous subversive program that has destroyed our market, which in turn is destroying our country!

The people responsible for this mess are either fools, ignorant, or out and out subversive. If that politician is one of the first two, let's educate him and see if he will make a turn around. If he doesn't, let's remove him from office. If there were tariffs established tomorrow to enable the farmer to provide the meat for our own consumption, as it should be the farmer wouldn't have enough feed and grain to do the job. In fact, the farmer in this country hasn't - in the last fifty years - raised enough feed grain to provide for the meat we consume, therefore there has been no real grain surplus!

If those tariffs were set up so the farmer could supply our market, rather than foreign interests supplying the rest of the world the grain to fill the void, if we were to switch to our own livestock production, the meat and grain markets would seek their proper level and the whole world's farmers would once again enjoy reasonable prosperity.

I can hear the socialist crying out, *"How could the poor afford the increase in the price of food this would bring about?"*

It's a phony cry. If the price of wheat were to increase 50% it would add less than five cents to the cost of a loaf of bread. If the price of anything of abundance is too high for the poor, the very fact of their not buying it would bring the price down. That is a natural response of the free market. If the government stepped in and began subsidizing the poor, the price would not seek its proper free market level.

### **ECONOMIC FORCES**

Any rational person understands that we must protect our freedoms and way of life at, or beyond, our country's borders. The greatest force in the world is economic. The very existence of our country, our freedoms and our way of life depends upon constant vigilance at our country's borders from foreign forces, whether they be economic or military. While we have not hesitated to fight for our country's freedoms when threatened from foreign military threat, we have removed almost all restraint against the invasion of

foreign economic forces! When a check is made on our trade relations with the rest of the industrialized world, the results will reveal that there is not one country among them that doesn't have either tariff regulations or various inspections and subsidies to protect their markets, even though they have free access to ours. Well, regulated tariffs are an absolute necessity for a free market.

### **CURRENCY**

Consider international financial forces at work today that affect our markets. Currency only has value because of the wealth it represents. Since we have no gold or silver backing for our currency, its value can only be the productive effort of the American people.

When the banking system began financing worldwide causes in third world countries, underdeveloped countries etc. the value of all that money scattered so freely around the world was taken from the American people by lowering the value of their money - inflation in the making. That money was created out of thin air. Those third world countries grabbed that money so freely given and scattered it to the four winds, generally. Often it was used to create or subsidize overseas industries which, in turn, sold their products into our markets, once again underselling our markets because our money was so freely given, and we had no tariff protection.

Most of those countries are unable to pay off those loans made with funny money, but the demands being made by the forces of international monetary control are for stringent austerity so interest can be paid. As a result those countries are in such economic straits they are bordering on or are in a state of famine. In 1982 the exchange rate in Bolivia was 43 pesos to the U.S. dollar. In February 1985 it was 100,000 pesos to the dollar, and scheduled to be possibly 2,000,000 pesos to the dollar in a year. Bolivia has her money printed overseas. That country's third largest import is their printed currency. It was at a cost of \$20,000,000 in 1984!

They must come up with the payment on their foreign debts in dollars. Since they, like the rest of the world, are operating with greater and greater deficits, they must print enough pesos to buy the necessary dollars thereby driving inflation higher and higher. So it goes with the rest of the third world, and the so-called developing nations!

These same international money-managers are now making their demands of the American farmer, namely payments against all of that funny money they issued out of thin air and loaned to the farmer.

Mexico's meat consumption is just about one ounce per day per person, or slightly greater than that of Ethiopia. This in turn, has resulted in several hundred thousand head of cattle being shipped into the already depressed U.S. market, since Mexico's people cannot purchase their normal diet. This terrible picture could not have happened except for two reasons.

*"There is not a single instance in history in which civil liberty was lost, and religious liberty preserved entire. If therefore we yield up our temporal property, we at the same time deliver the conscience into bondage."*

**Rev. John Witherspoon, 1776**

1. Not having properly regulated tariff laws.

2. Not prohibiting our banking system from issuing all of that funny money with the guarantee that they would be paid back, either from the recipient of the loan or, in case of default, from the American taxpayer. I am not talking about the local bank. I'm talking about the top fifty international banks such as Chase Manhattan and the guaranteed protection from losses as a result of The Monetary Control Act of 1980, wherein provision was made for those International Banker losses to be picked up by the American taxpayer. The inevitable result of printing funny money has been inflation. Then, to keep the rest of the world from fleeing the dollar, World Bankers raise interest rates on all those trillions created out of nothing. The result is something they now call a strong dollar.

Just how strong is the dollar? It is a hoax about as cruel as the "no tariff" game. To keep the rest of the world from fleeing the dollar, the money managers raised interest rates to make funny money attractive. On top of the fact that we do not have a protection from foreign economic plunder, (no tariffs), the so-called strong dollar, the ploy has caused the cost of anything we might produce to be priced out of the export markets. Hence, a \$130 billion trade deficit in 1984.

At the same time, high interest rates are annihilating industries. Over 40,000 corporations went under during the 1982 recession. Four or five times that many were borderline insolvent, staying afloat by something called "economic recovery." Just what is this economic recovery?

People who have extra funds to invest are being suckered into buying various types of paper-bonds, money funds, etc. It is nice to be able to get such a return on savings. Yet, all government paper is nothing more than I.O.U.'s. They are really only promises to pay you some time in the future by finding more suckers then, who will be promised whatever interest rate necessary to get them to bite. It's kind of like the chicken thief who pays his lawyer with chickens!

While this fool's paradise is being played out, remember that this whole scenario of high interest rates and strong dollars makes the cost of funds necessary for the functioning of our free enterprise system prohibitive, in order to keep you tranquilized, Big Daddy continues to spend about \$1,800 billion strong dollars a year - about half of which he doesn't have.

You see, they discovered some old records from the Old Roman Empire. What you've been hearing are those beautiful strains of the violin. Nero's that is! Laws called "anti-trust" are used to destroy any business that might be efficient enough to provide good service. I'm talking about how Uncle Sam was able to dismantle Ma Bell. Aren't you just thrilled with the great reduction in your phone bill? There is now a great increase in imports of those products Ma Bell was providing right up to the time of her demise. If your business happens to be within the borders of the U.S., you are subject to this guillotine called anti-trust law. The multinationals can go beyond our

borders, for monopolies to their heart's content, and because of no tariffs can come back into this country and clobber away.

### WORLD TRADE

In the next few years the economic turmoil is going to be so great in most of South America, they will be brought to a standstill as far as contributing to world trade. In fact, I believe famine will be so widespread it will dwarf the present world picture. Bangladesh produces food at the rate of 3,000 calories per person per day. The absentee landlords loan the peasants the money to produce their crops at interest rates of 200-250%. Under this type of slavery, the peasants can't buy the produce they raise. Therefore a great number of their people are in a constant state of famine, while their produce is sold on the world market.

This picture of the wealthy landlord keeping their tenants in bondage is pretty much duplicated in most so-called "third world and developing nations." The United States is making this all possible by making American markets the dumping ground for slave labor goods. That is how our farmers can be kept in bondage with their markets depressed.

The financial pressure being brought against U.S. farmers is probably going to bring down crop production to such an extent that a state of famine will develop in this country!

As large conglomerates go overseas to escape severe operating conditions - OSHA, non-competitive tax laws, high labor cost, government red tape, extremely high cost of sickness care - those conglomerates become strong objectors to tariffs because it would then, after they have made their move, upset their new plan of operation.

### TARIFF PROTECTION

Had we not had tariff protection at the beginning of this century, Henry Ford would probably have set up his plants in China. In fact, ***without adequate tariffs this great industrial nation would never have been built. Without adequate tariffs this nation will cease to be an industrial power in the world.***

You hear it all the time. We are going to become a service nation. That is because it is planned that way by the international monetary control people. They are getting it done because one way tariffs they have put into effect! If we lose our place in the world as an industrial nation, ***we will automatically become a third rate nation.***

The first rule of preservation is: *Let the rest of the world supply its own markets and let us supply ours. Then and only then, let nations negotiate for those items not in abundance.*

Free markets can only operate under their own rules and must have tariffs to safeguard against the rules of others. Free *domestic trade cannot exist with tariffs!* Free international trade cannot exist without bringing ruin to nations without the highest standard of living.

## BIBLE LAW QUIZ

In early history, you may recall that one of the first things Christian explorers did when they set foot upon a new land was to claim that land in the name of their God and King. What verse might these Israelites have used as justification for this action?

Deuteronomy 11: \_\_\_\_\_

Read Deuteronomy 12. We hear much about "freedom of religion" (as in section 116 of Australian Constitution). In a Christian nation, does our God grant freedom of religion to the religions of other gods?

- Yes.
- No.

Read Genesis 9 and Leviticus 17. Several times the Bible tells us not to eat blood. Food laws did not begin with the Levitical priesthood. In Genesis 9 we are told not to eat blood and that a murderer shall:

- Repent in dust and ashes.
- Be executed.

Are these two laws concerning food and murder part of a covenant God made with Noah and his descendants, what do you think? (Genesis 9:1-17).

- Yes.
- No.

Are you a descendant of Noah?

- Yes.
- No.

Therefore, Noah and his descendants, (you and I) are to keep the laws God gave at that time.

- Agree.
- Disagree.

In Deuteronomy 7: 15 we learn that if we keep God's Laws, "He will take away from thee all sickness, and will put none of the diseases of Egypt upon thee." God has also said, "I am the Lord... who forgiveth all thine iniquities; who healeth all thy diseases," (Exodus 15:26 and Psalms 103:3). God gave us food laws showing which things are good for food and which are not. Bad food will make us sick. When we are sick, can we expect God to heal us if we refuse to keep His laws of health and diet?

- Yes.
- No.

## OFF THE PRESS

by Jerry Younkins.

Our country has so fallen from the dreams of our founding fathers that today we label good evil and evil good, light dark and darkness light. Indeed our very world is turned upside down. Those who still care are running hither and thither looking for an answer, but trying to find the answer to crushing problems that confront us is impossible, UNLESS...

Dr. Snook in his book *To Heal The Nation*, not only defines the problem that we face as Christian Americans (or Australians) but takes us right where the answers are. He clearly points out why we need the Divine Law, the main theme of his work. To quote from Dr Snook: "The doctrine that Jesus fulfilled and thereby abolished all the law is the cause of our national problems today - economic political, military, financial and social."

This volume is a compact study of the applicability of the Commandments, Statutes and Judgments found in the Bible, both Old and New Testaments, that is to say, how God's guidelines are as valid for us now as for our Israelite brethren of days gone by.

The cumulative result of obeying the Commandments, Statutes and Judgments is boundless blessing on the nation." The author discusses in detail the essential covenant relationship of Israel in harmony with the Divine Law then goes on to cover the result of obeying God's Law. He discusses citizenship in the Kingdom, ethnic purity, health, land laws, agriculture, economics, taxation, capital punishment and other crimes.

*To Heal The Nation* by Dr. J. Franklin Snook. paperback, 186 pages. \$8 posted from CIM.

*To Heal The Nation* is very close to being a workbook for the reestablishment of a nation truly under the dominion of our Sovereign and King. It is of paramount importance that our people return to the Divine Law if we are to survive rather than try to right existing wrongs without God's help. The information contained here is basic to any Kingdom Identity study and is written in easy to understand terms with great authority.

**TIRE FIRE.** When South Africa declared a state of emergency on June 12, one of the reasons cited was that there had been 172 "necklacings" by South African communists between March 1 and June 5. This form of murder involves burning the victim alive in a tire. The Establishment media did not mention this figure, nor were we exposed to any TV footage of such lynchings.

Nor was it news when Mrs Nelson Mandela, wife of the imprisoned terrorist, voiced her approval of these atrocities on April 13. A French press agency quoted her as saying: "Together, hand in hand with our boxes of matches and our necklaces, we will liberate this country." Two months later this exponent of savagery was given an honorary degree by the John Jay College of Criminal Justice in New York City.

**'MUTI'-LATION.** Although a few words have been printed in the establishment media about the "necklacing" atrocities (but not much), there has been no mention at all of a more brutal form of murder now emerging, with the recent discovery in Chesterville, South Africa of bodies horribly mutilated by the communists.

Soccer player Squzo Ngubane, 33, was found with his eyes and brain gouged out and other body parts removed. The next day Mduduzi Gumede was also found hacked up. Witnesses said they had seen members of a communist youth gang collecting his blood in a bowl. His brain had also been cut out. The Reds have promised there will be more of the same. Local residents say the body parts are used to make "muti" magic charms and potions.

## THAT OLD SERPENT, CALLED THE DEVIL AND SATAN - REVELATION 12. Part 5

And remember then those ten kings, in Revelation 12: 16:

*"...shall hate the whore, and shall make her desolate and naked and shall eat her flesh, and burn her with fire."*

If I am correct in my belief that those ten horns are ten nations and are collectively the U.S.A, then it will be the U.S. which will destroy the power of the red beast of world communism that now rules over all the world.

Turn with me back to the prophet Obadiah. This is only one page in most Bibles, and it is concerning Edom, The destruction of Edom, starting in verse 1:

*"The vision of Obadiah. Thus saith the Lord God concerning Edom... Most of you know Edom means RED; Edom is world communism.*

*We have heard a rumour from the Lord, and an ambassador is sent among the heathen, Arise ye, and let us rise up against her in battle."* And then this prophecy describes the destruction of Esau/ Edom which we can identify as this world controlling power that now reigns over all of the earth. And look who destroys Edom, in verse 17:

*"But upon mount Zion shall be deliverance..."* We've identified the U.S.A as Zion in previous sermons.

*And there shall be holiness; and the house of Jacob shall possess their possessions. And the house of Jacob shall be a fire, and the house of Joseph a flame, and the house of Esau for stubble... Esau is Edom; it says that four times in Genesis 36. Then the last verse 18:*

*And saviours shall come up on mount Zion to judge the mount of Esau... In other words, saviours shall come upon the nation of Zion to judge the nation of Esau or Edom, the Reds.*

*"And the kingdom shall be the Lord's."* This is the description of the last battle to be fought upon this earth, when Jacob/ Israel, after having been deceived into giving their power to this great red beast and this scarlet woman. Then we'll turn on the woman and destroy her. And to me this makes the only sense out of this entire prophecy: that this beast with seven heads and ten horns is something which gives power to the scarlet woman and then it in turn will turn back against them and destroy them.

There is more on this and God willing, we will continue and go through the rest of Revelation 12 next time, because it is a long, end of the age prophecy, all of which must be fulfilled sometime after John saw the vision. And the point I wanted to make, and I'll repeat it again: if you take Revelation 12 as the Catholic Church does, as the Protestants and some other denominations do, and say: Oh, this is that great archangel and he fought in heaven and he was brought down to the earth, and so on, you then destroy all of the actual prophecy which is being given here.

No wonder our people are blind to what is happening in the earth today; because prophecy, the Bible, has been misinterpreted to them. We'll continue, God willing, with Revelation 12 and some other related verses next time.

To be continued

## SOVIETS NEED MASSIVE WESTERN LOANS

Bankers are only too willing to cooperate. The Soviet Union is going to need to borrow \$25 Billion or more over the next five years, according to U.S. experts who specialize in the Soviet economy. These hard currency loans will be necessary to keep the communist state afloat now that it is suffering large export earning losses from the sharp drop in oil and natural gas prices. But Moscow is not worried: it knows it can easily borrow the money from western banks and from the International Monetary Fund and the World Bank.

Whoever said there was an "arms race" between the Soviets and the West? It is obvious the Soviets could not even survive without the money from those who are supposedly against communism, without even considering the constant supply of technology. Hold could a Russian and an American space capsule link together unless they were both working from the same drawings?

## MY PEOPLE

A readers contribution:

Arise, Oh my people, Israel, Ye who are called by **My** name. Harken not unto the raging of the heathen who say: "Where is thy GOD."

Put on your armour, Beat your ploughshares into swords, for the battle is not yet over, wield your swords in the power of the Spirit of your God, 'Yah-weh.'

Tarry not in slumber. Be ye ever vigilant to ward off the darts of the enemy, with the breastplate of Righteousness.

The time has come for **My** people who are called by **My** name, to take hold of their birthright and go forth, casting off the yoke of the enemy Edom, who seek not my glory, but their own.

Fear no evil as ye walk in the valley of the shadow, Ye are **My** chosen, **My** creation, called from the womb to serve only **Me**, your God. Return to **My** Law, Commandments and Statutes and live, for they shall endure for ever, as does the Sun, Moon and Stars endure, as a witness to **My** greatness.

Am I not the **I AM**, the First and the Last, the Beginning and the End who by **My Word** created and holdeth together the whole creation.

Take hold of **My Word** which endureth for ever. Let not fear trouble your soul, or your feet to stumble.

Stand upon the **Rock**, your solid foundation. I am your Strength and Shield. Return I shall to rule **My** people, wreak vengeance on the ungodly who hate **Me**; **My** people shall be delivered from the yoke of Edom.

With a rod of iron shall I rule and pluck out all ungodliness from **My Kingdom**. Therefore turn ye to **Me** your God who created and chose you from the beginning to serve **Me**.

Come and let us reason together. Ye are the sheep of **My** pasture; The Chosen of YAHWEH!

B.E.H. Western Australia.

## AMERICAN GESTAPO

Americans are being duped into helping enslave themselves. Under the guise of protecting us from various things like drugs, terrorists and drunken drivers, the courts and the police are usurping the rights of Americans to be free from unlawful search and seizure, as well as our right to privacy and freedom of speech. The dumb public thinks they are being protected when in fact they are being robbed of their freedoms and forced (through taxation) into 'financing international war, banking and plunder.

One case in point: Robert C. McFarlane, former national security advisor to President Reagan, has urged the creation of a secret military force to infiltrate "terrorist groups" and launch "pre-emptive strikes" on their camps. McFarlane announced this recently at a speech given at the Simon Wiesenthal Center for Holocaust Studies. If this plan is carried out it may prove to be another nail in the coffin of American Freedom.

To decipher such announcements one must understand the code words like "pre-emptive strike" and "terrorist groups." They say 'pre-emptive strike' instead of "military invasion." It is the same thing but it sounds better, and the public is tricked into thinking that it is a defensive action instead of an offensive one. "Terrorists" is another term used by anti-Christians to control public thought. When they say 'terrorist groups' they mean any groups which they don't like, or who try to expose their plans of subjugating the people.

William Casey, director of the CIA says his agents are tightening their ties with the security service of Israeli for the purposes of meeting the threat of terrorism. Casey says that the United States is cooperating in intelligence exchanges between the Israeli Mossad and the American intelligence community. I've received reports of "anti-terrorist" training camps here in the States where men are being trained by Israeli Mossad agents.

Now it is becoming common knowledge that all Christian-Patriot groups who are against the Internationalization of America are considered "terrorist groups." Generally speaking any group that protests taxes, usury-banking, international communism, and speaks against anti-Christ religions like Hinduism, Judaism, Humanism and Freemasonry are considered "terrorists" by the law enforcement growth industry. Last year, 955 incidents were investigated nationally by the FBI. Since part of the profile kept on these "extremist groups" is that they are "tax protestors," the IRS is usually cut in on any investigations.

Let's see now, the FBI, CIA, IRS, Federal and State Police and the Mossad are all working together against what they call "extremism and terrorism." What has brought all these agencies together against this common foe? Who is this common foe? The answer is found in the Bible:

*"If ye were of the world the world would love his own: but because ye are not of the world, but I have chosen you out of the world, therefore the world hateth you. Remember the word that I said unto you, The servant is not greater than his lord. If they have persecuted me, they will also persecute you."* John 15: 19-20.

Our un-Christian government (and its hirelings) of today have taken up the same anti-Christ stand as did the local Jewish government in Christ's day:

*"But they cried out. Away with him, away with him, crucify him. Pilate saith unto them, Shall I crucify your king? The chief priests answered, WE HAVE NO KING BUT CEASAR."* John 19: 15.

Today's 'chief priests' in government have taken the position of being in competition with Jesus. They view Christ as a political opponent, and just like the Pharisees of the first century they hate Him because they see a sizeable faction of people proclaiming Him as King. When we Christians proclaim that America's King is Jesus Christ, the government responds with 'YOU HAVE NO KING BUT CEASAR.' "You can't mix religion with politics." "We must keep God out of government."

Thus, we hear a lot about the "separation of church and state." The anti-Christians are doing everything they can to keep Christians dumb and blind to the simple fact that God cannot be kept out of government. GOD IS GOVERNMENT.

Pastor Williams, too, is considered an "extremist" because he thinks that America should recognize Jesus as her King. Let's list a few of the traits associated with the so-called "extremists." In most cases they distrust our current government personnel. They believe in God and Country, individual freedom and Christian self-government. They don't like the Federal Reserve System, bureaucrats, unlawful taxes, usury, mandatory licenses, Socialism, or anti-Christian organizations. They believe in freedom and are willing to fight for it.

Well now, that sounds a lot like the traits of our founding fathers. One of their sayings at the time of the War of Independence was "NO KING BUT KING- JESUS!" The same commitment put Daniel in the lion's den, the Hebrew children in the fiery furnace, and many Christians in the cruel jaws of lions in the Roman sports arenas.

Could it be that America has come full circle now? Are we once again facing the same enemy that sought to crucify Jesus, and then later fought against our founding fathers to try to prevent them from gaining independence and freedom from the corporations of the British Crown?

In the 1700's, King George sent "standing armies" (corporate policemen) over to these Colonies to protect his corporate interests against the "Freemen" and "the Sons of Liberty" (today they are called terrorists and extremists). Today, the Federal, State, and Municipal police forces (all corporate police) are

the "standing armies", the hirelings of our modern day "King Georges" known as International Bankers/Financiers.

These hirelings are paid to protect the interests of the corporations against the interests of the natural individual citizen. Today, the battle lines are still the same as in the 1700's. It's "King George" against "the Freemen"; International Banks and Corporations against the natural citizens.

There is nothing new under the sun. The warning is clear. If you are an individual natural citizen, not a corporation, then the Federal, State and City police will not defend you and your rights. They are not created for that purpose. Rather, they are designed to defend the interests of their corporate employers (Federal, State and City governments are corporations controlled by banks). They are not trained nor paid to protect citizens.

If you start an organization for the purpose of informing the citizen and protecting him from the abuses of these "standing armies" you will be labelled "extremist" and "terrorist." Not only that, but "King George's armies" will send spies to penetrate, infiltrate, and collect selective information which can be used to possibly set you up for arrest, prosecution, and/ or public defamation via the news media, whether you are guilty or not.

By the way, don't allow the Public Brainwashers (the news media) to have uncensored access to your brain. While most of us find it necessary to read the newspapers and watch the evening news on TV, we must remember that the majority of it is inaccurate and often misleading. One must filter the news carefully to keep from being duped. Thomas Jefferson, speaking of his contempt for the newspapers, once said that a person would be better informed if he didn't read them at all. The News Media hasn't improved since Jefferson's day, it has only gotten bigger.

Pastor Ron Poch from Atlanta, Georgia has accepted the position as pastor of Lord's Covenant Church in Phoenix, Arizona.

I would like to thank all who have written to us, we appreciate your mail very much even if it sometimes takes a bit longer to answer. Please keep writing. Thanks also to those who helped with the purchase of the printer. I pray that *some* of the tracts will be wanted by more people for further distribution.

Talk to friends and neighbours; send tracts to people in public office. I hope to include an updated list of videos now available, as well as some photos of us here. Space has run out again as I would have liked to include more.

May the God of Israel, the Lord Jesus Christ bless and keep you all,
