"Blessed be the LORD God of *Israel*; for He has visited and redeemed *His* people, And raised up an horn of salvation for *us* in the house of His servant David; as He spake by the mouth of His holy prophets, which have been since the world began; That *we* should be saved from *our* enemies and from the hand of all that hate *us*; to perform the mercy promised to *our* fathers and to remember His holy covenant; The oath which He swore to *our* father Abraham, That He would grant unto *us*, that *we* being delivered out of the hand of *our* enemies might serve Him without fear, in holiness and righteousness before Him, all the days of *our* lives." Luke 1:68-75;  
The Anglo-Saxon-Celtic-Germanic-Scandinavian people are *ISRAEL!*

## Covenant Messenger

October AD 1985

A publication of the N.Q. Fellowship of God's Covenant People

**UPRIGHT HOURS:** You need three hours of upright activity a day, says the President's Council on Physical Fitness, just to prevent bones from becoming porous and weak. If you get pooped after you've played only half an hour, a little more potassium in your diet should help. "This mineral helps to cool muscles, and hours of exertion use it up. If it's not replaced, the result is chronic fatigue," says Gabe Mirkin, M.D. author of *"THE SPORTS MEDICINE BOOK"*.

**TELONE II:** As a result of National Toxicology Program findings that the soil fumigant Telone II is carcinogenic, manufacturer Dow Chemical has requested EPA to give its chemical a "restricted use" classification and require a cancer warning statement on the label for applicators. The easily absorbed Telone II (1,3-dichloropropene) is known to cause bladder, lung and stomach cancer, and also damages the eyes and central nervous system. In addition the fumigant is highly corrosive to metals, and passes through the rubber and vinyl used in protective gear (polyethylene appears to be the most resistant). The federal government has made no move as yet to restrict or ban the chemical. (From *"Pesticides & You"*.)

**ROSEMARY OIL:** A drop rubbed on your temples or added to tea relieves a headache. A Rosemary Oil and water compress on the forehead stops a nosebleed and rosemary and olive oil fixes up tired tourist tootsies.

**FLUORIDE IN AFRICA:** In *"Fluoride, the Aging Factor"*, Dr John Yiamouyiannis proved beyond the shadow of a doubt that fluoride is devastating the health of poorly nourished people. Those with better nourishment can endure more - not only fluoride, but DDT, 2,4-D and the other goodies from the devil's pantry. Now comes word from University of Nairobi that using fluoride toothpaste in Africa is like adding gasoline to a fire. Starvation and poor nutrition are endemic in much of Africa including Kenya, Tanzania, Uganda., Ethiopia, the Sudan, Rwanda, Burundi and parts of Zambia, Mozambique and Zimbabwe. More fluoride is like feeding lead to these people.

**WORLD CANCER CAPITAL:** Antigo, Wisconsin, has been fluoridated for 31 years. Public records reveal that during this period, heart deaths have increased from

86.4 per 100,000 below the national average to 176.5 per 100,000 above the national average and continued to increase to 1979 when the last study was made. These records are public and can be checked by anyone. The contents of every water pipe from Antigo that was examined contained an excess of fluoride up to 3,100 parts per million. Antigo also has the highest incident of colon cancer in the world.

**TOOTHPASTE:** For Fluoride free toothpaste get Blackmore's Herbal and Mineral toothpaste. Available from most health stores.

**FERTILIZERS:** It has been computed that the production of chemical fertilizers accounts for nearly one-third of the energy costs of modern farming.

**SARDINE STAMINA:** The more you play the more stamina you need. Have a few sardines, or a slice of cheese before you play at sports. Both supply calcium, a mineral that keeps you on the go.

**GASOHOL SALES FOR U.S.:** Gasohol sales for the 19 states reporting increased by 21.1 % compared to December 1983. The states reporting the largest sales for December were Michigan, Florida, Iowa, Kentucky, and Texas, with a combined total of 192,600,000 gallons. For the 19 states, gasohol represented 5.9% of total gasoline sales.

**MODERN INTELLIGENCE?** Ask any farmer and he'll tell you grain prices are low because farmers simply produce those surpluses. They can't stop themselves, and so surpluses cut them down via the price mechanism. And that dirty of dirties, Jimmie Carter, stopped farmers from selling the extra stuff to the rest of the bankrupt world. This is an article of faith with farmers, friend and foe alike. The logical extension is that we have all those hungry people in the world because we produce too much food. Apparently too much food drives prices down so much, there is little

The views and opinions expressed in the articles herein or herewith are those of the authors and not necessarily those of CIM. They are written by fallible men. You must ask Jesus to guide your studies!

CIM reserves the right to edit submitted or reprinted material in line with CIM editorial policy. CIM does the utmost to ensure that the spirit of articles remains intact at all times.

income with which to buy food, and therefore a lot of people have to starve. If we could simply manage to grow less and control supply, well then we'd have more income, and everyone could eat. The world turns over from time to time. By 1988 it is likely to turn over again. Those who have land that is paid for would do well to keep it. Real assets will be superior to pieces of paper when the money wipe-out arrives. But those who have debt on their acres will not likely survive.

**WASTED FOOD:** While on the subject of starvation amidst bumper crops, did you know that the Europeans dump on the trash heaps EVERY MINUTE 866 lbs of apples, 41 cauliflowers, 1648 lbs of lemons, 1358 lbs of oranges, 438 lbs of peaches, 755 lbs of tomatoes and 46 lbs of pears.

**DATA MINING:** While a lot is being said about I.D. cards and information storage in Australia, note this: A recent cause for alarm has been President Reagan's tax reform package. As part of the package, IRS (tax dept.) would be enabled to carry out a five year plan to revolutionize the collection of taxes. In testimony before the House Ways and Means Committee, Kenneth White of the Virginia Taxpayers Association charged that the calculation of taxes is scheduled to be computer assembled by 1988, which is correct. The totality of systematic gathering by a government agency of personal data, he said using state, county and local records of all kinds (bank records, credit union records, building permits, credit card records, etc.) to develop a personal profile would put the U.S. into a police state category. It would cancel the Privacy Act, and make a mainframe computer at Martinsburg, West Virginia, a 1984-style guardian over the lives of all Americans.

**13 MILLION CASUALTIES:** An epidemiologist and mathematician, Dr Rosalie Bertell, has computed that there have been 13 million nuclear casualties so far - deaths caused by nuclear testing, uranium mining, shoddy nuclear power plants, and from increased birth defects, cancer and leukaemia - many a consequence of low level radiation. Dr Bertell is Director of Research of the International Institute of Concern for Public Health. The study is being circulated by Women's Press of Toronto and England.

**RACISM?** With all the clashes between police and coloured rioters in England being in the news recently, I wonder if the government will impose sanctions against Great Britain. Perhaps they will prevent sporting matches, as they did with South Africa? In any case, it must be a shining example of a multicultural society.

**MEDICRATS LIE ABOUT CANCER DEATHS:** While U.S. "medicrats" are bragging about their successes in decreasing the risk of death from cancer, the truth is, according to the World Health Organisation (WHO), the deaths resulting from the disease have been doubling and even quadrupling. Meanwhile, as the establishment cancer fighters continue to push various forms of poisonous chemotherapy and radical surgery in the battle against the dread disease, other less radical forms of treatment that have been reported over the years, have been pooh-poohed or totally ignored by the "medicrats"

**15 MILLION MURDERED:** A "Four Corners" program showed how abortion has turned into a holocaust of genocide proportions. It appears that some people will no longer put up with this wilful murder of the unborn. As long as violence is perpetrated against flesh and blood, they will perpetrate violence against the abortuaries. Out of four murder factories in Pensacola County, Florida, three have been permanently closed down by demolition (bombed).

"Permit me to issue and control the money of a nation, and I care not who makes its laws."

**Mayer Anselm Rothschild, Banker.**

**MONEY:** The only release from the enslaving grip of the moneylenders is to be found in the Christian Bible, as part of God's Law. Leviticus 25: 10 says, "...And ye shall hallow the fiftieth year, and proclaim liberty throughout all the land unto all the inhabitants thereof; it shall be a jubilee unto you." Cancel all debts, and restore all foreclosed property.

"I believe that banking institutions are more dangerous to our liberties than standing armies. Already they have raised up a moneyed aristocracy that has set the Government at defiance. The issuing power should be taken from the banks and restored to the people to whom it properly belongs."

**Thomas Jefferson, President of the United States**

**NON-USURY BANKING:** Usurious interest rates are no more - at least in Iran, where Islamic banking principles have been put into practice. Christian and Islamic theologies have historically condemned usury; and in keeping with its Islamic heritage, Iran has banned lending for profit and instituted a new banking system, which is designed to benefit not just the banks, but Iranian society as a whole. International financiers who reap vast profits from interest are adamantly opposed to the implementation of Islamic principles in banking. Americans, crushed under the heel of high interest rates and skyrocketing inflation, all of which benefits the mega-bankers, can take a lesson from the people of Islam and the banking system they have created.

**FREE TRADE:** Populist Party members picketed the Bilderberg meeting in Rye Brook, New York. A carried placard stated: "**FREE TRADE - SLAVE TRADE, BILDERBERGERS INDUSTRIALIZE RED CHINA, GIVE AMERICAN JOBS TO COMMUNISTS**". (Could that be where Australian jobs are going too? CIM)

With the nation being in dire straits economically I thought that Pastor Schott's message was particularly appropriate. It also offers the solution to the problem, which we do not hear from the churches. Our thanks to all who have given support and continue to do so. Please let us hear from you regularly. We pray that the Lord Jesus Christ will bless and keep you.

Your brother in Christ,

*Hendrik (Hank) Roelofs*

# Car of the future wired up to run on... plain water

AROUND the turn of the year, a small car, fuelled only by aluminium wire and water, will leave Paris at the start of a demonstration trip that will delight Queensland Premier Sir Joh Bjelke-Petersen - a well-known proponent of the hydrogen car.

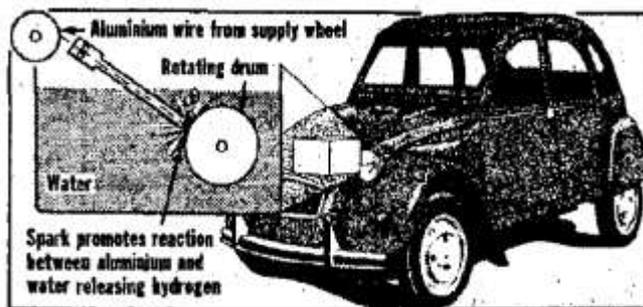

The proving run will take it 50,000 km around Africa. Fuel costs will be less than a fifth of those of petrol, with low pollutant production an added bonus.

The fuel burned in the car's engine will be hydrogen, produced on demand by an electrochemical reaction between the aluminium wire and water.

The hydrogen generator is the invention of Francois Cornish, a Frenchman who lives in London. It has been developed with the help of the International Energy Commission, originally a United Nations organisation but now hived off.

"The original idea was simply to produce hydrogen on demand. A car is a good way of demonstrating it. In Africa, we will be setting up units for domestic too," said Mr Cornish.

In the hydrogen generator, a spark is struck between a drum

rotating under water and the tip of a wire made from a special aluminium alloy. The combination of the physical effects of the spark and a chemical reaction between aluminium and water releases hydrogen and oxygen.

The gases are mixed with air to increase the proportion of oxygen and fed directly into the manifold of an ordinary petrol engine.

As the tip of the wire is consumed, more is fed in by two motor-driven rollers. The speed at which the wire is fed in determines the rate of hydrogen production, and this is controlled by a microprocessor to meet the demands of the engine.

A fully engineered generator would easily fit under a car bonnet.

"At present, it takes up about a cubic foot, but we should be able to get that down to a 20cm cube," said Mr Cornish.

The petrol tank could be used to hold the water for the generator. Other modifications required to convert a petrol-driven car would be a special inlet for the gas and a new alternator to supply the hydrogen generator as well as the usual car electrics.

Performance is claimed to be as good as for a petrol-fuelled car, apart from minor delays in starting if the generator has been out of use for some time. A kilogram reel of wire would give around five hours driving, with a water consumption of a few gallons.

Despite the dramatic cost savings, Mr Cornish is cautious about the immediate prospects for the generator. "Petrol is heavily taxed, and if our system caught on, no doubt it would be taxed too," he said.

"In Holland, it took 15 years for liquid petroleum gas to make good its impact as a fuel, even though it was cheaper. But the low pollution is a big advantage.

"I don't want to see the generator licensed to a single motor manufacturer. I would like it, to be available for anyone who wants to fit it to his car. I would be pleased to see a market penetration of 10 per cent over the next 10 to 15 years."

Whether or not the hydrogen generator catches on in the short-term, its long-term prospects are excellent. Petrol will inevitably become more expensive as oil reserves are used up, and hydrogen produced from water by electrolysis has often been tipped as the vehicle fuel of the future.

The big problem is storage, but with on-board generation, storage is not necessary.

*The Sunday Times*

## Homework for Armageddon

SIR - My 13-year-old daughter is a pupil at Maroochydoore High School. Tonight, while I was checking her homework, I came across the enclosed, The Bomb Shelter.

No wonder our kids are so messed up!

### THE BOMB SHELTER

#### Instructions:

This game is best played with from four to 10 players in at least three groups. Each group operates independently of the other groups during the decision making time of about 15 minutes and it is best if each group can be seated in roundtable fashion.

The scene is set by the teacher who tells the groups that each group is to imagine that there has been a nuclear war and that they (each group) are in a bomb shelter with sufficient provisions to see them through until they can come out.

There is a good reason to believe that there are no people alive but themselves and a collection of people waiting outside the lead door protecting them from the radioactivity. The future of human society may well depend on the people inside the bomb shelter and those outside whom the group decides to take in.

#### The decision:

Outside the door are 15 people all of whom want to come into the shelter, but there are only provisions for six additional people. Only the following information is known about the people outside:

1. A 19-year-old female bookkeeper
2. A 21-year-old male black militant.
3. A 72-year-old female doctor.
4. A 38-year-old male Anglican minister.
5. A 13-year-old schoolgirl.
6. A 29-year-old female maths teacher.

7. A 68-year-old bricklayer.
8. A 46-year-old male Japanese farmer.
9. A 26-year-old female columnist.
10. A 53-year-old policeman.
11. An 18-year-old female rock singer.
12. A 41-year-old female psychologist.
13. A 24-year-old male football player.
14. A 29-year-old female solicitor.
15. A 39-year-old male taxi driver.

Each group has 15 minutes to select six people from this list to join them in the bomb shelter, but the decision must be made without voting.

#### Post discussion:

When the decision on which six people shall enter the shelter has been made, each group announces who they have chosen and why they have made their decisions.

WORSHIP SERVICES  
SUNDAY SCHOOL 9:45 A.M.  
WORSHIP SERVICE 11:00 A.M.

SEPTEMBER - 1985  
WHO HAS GIVEN AMERICA  
TO THE ROBBERS AND SPOILERS?

PASTOR KARL F. SCHOTT  
THE PATHFINDER  
728 E. RICH • P.O. BOX 291  
SPOKANE, WASHINGTON 99210

Approximately 2700 years ago, the prophet Isaiah asked a question similar to the one in the title of this article. In fact, it is this statement by Isaiah which prompted me to ask, "Who has given America to the Robbers and Spoilers?"

Today many millions of Americans realize that something is wrong in our country, but are not able to fathom the cause of our many problems. Evidently the Israelites of Isaiah's time were in a similar condition for, in Chapter Forty-two, Verses Nineteen and Twenty he asks: "*Who is blind but my servant? Or deaf as my messenger that I sent? Seeing many things, but thou observest not; opening the ears, but he heareth not.*"

The servant which Isaiah is writing about is, of course, Jacob - or the House of Israel - the peoples who today comprise the Anglo-Saxon, Germanic, Scandinavian and kindred peoples. When Isaiah wrote about our forefathers, complaining that they were blind and hard of hearing, he was speaking in a figurative sense. They were not literally blind and deaf, but were spiritually blind and deaf so that they were not able to recognize the hand of God in their national affairs. The same is true for a great host of Americans who are of Anglo-Saxon heritage. They are blind and deaf as to their relationship to God as His servant people.

With this in mind, let us look at Isaiah 42: 24-25. "*Who gave Jacob for a spoil and Israel to the robbers? Did not the Lord, he against whom we have sinned? For they would not walk in his ways, neither were they obedient unto his law. Therefore, he hath poured upon him the fury of his anger and the strength of battle; and it hath set him on fire round about, and it burned him, yet he laid it not to heart.*"

These two verses speak volumes! They remind us of what is now taking place here in America, as well as in many of the other Christian nations which today make up the House (or Commonwealth) of Israel. In America today, millions of Christians are spiritually blind to what the Lord is doing, and one of the reasons for this is that they will not hear what the Word of God has to say to the nation.

For years while living in Boise, Idaho, I attended a Breakfast Bible study, which I enjoyed, but only a small number of the men who attended were concerned about the gospel of the Kingdom, or issues that related to the National message of the Scriptures. Most of these men loved the Lord, and would get up early to come to these Bible studies, but the problem, for most part, was that they had been so indoctrinated that we are Gentiles that they felt we had no place in Bible prophecy.

The idea that the Lord could be angry with our people because they are not walking in His ways (i.e. according to His commandments) and is now pouring out His fury upon America seems like a remote possibility to most of them. However, thank the Lord, a few of them could see that this was possible, to some degree, but they were too timid to say much about it, as they did not have enough scriptural knowledge to give them the courage to do so.

We, who know that the peoples which comprise Anglo-Saxondom are the Israelites spoken of in the Bible, often find it difficult to have the patience that is sometimes needed to reach and instruct those who for many years have been told that the Jews are Israel and that we are gentiles. If we are to be successful in teaching others, we need to be able to size up their needs, and not give them

meat when they are still in need of the Milk of the Word.

As we consider the words of Isaiah, we find that he not only asks a question, but he answers it also. Since America and the other nations of Christendom are in very similar straits today, it would behoove us to consider the instructions which we find in these two verses which were written so many years ago. If it is the Lord who has allowed us to be overcome by robbers and spoilers - those who would plunder the nation - is it not the Lord who has allowed the money changers and the corrupters, who produce almost all of the immoral and filthy films shown on TV and in our theatres, to be so powerful? We know that these people have no respect for Jesus Christ and the Christian principles which have been the guiding light here in America since its very early days.

The solution to getting rid of these robbers and spoilers is not difficult, according to the prophet Isaiah. He simply points out that we have sinned against the Lord our God as a nation. We have refused to honor and obey His laws and commandments, and therefore His anger is poured out against us. The answer then, obviously, is to once again obey the laws of God. However, as simple as it sounds, we, like our forefathers during the times when the Kings of Israel ruled, find it very difficult to turn back to God and once again be obedient to His commandments.

The good news in this matter is that it is the Lord who is allowing our enemies to rob and spoil us. He is using them as a rod with which to chastise us and they will only be able to go as far as the Lord allows. It is our sins which separate us from His love and blessings. We can blame the anti-Christ and the Communists, etc. for all of our problems if we wish, but the truth of the matter is that the Lord is holding us responsible for our actions.

The prophet Daniel who, as a young lad, was taken captive by the armies of Babylon, under King Nebuchadnezzar, realized that the Judahites were taken captive because they had sinned grievously against the Lord. Daniel understood, from the writings of Jeremiah the prophet, that certain of the Judahites were to return to

Jerusalem to help rebuild the temple. It is interesting to note Daniel's wonderful prayer concerning their release, after having been in bondage for seventy years. Not once does he criticize the Babylonians, but instead makes his petitions and prays to the Lord to forgive his people, Israel, for their trespassing of God's law.

In the Ninth Chapter of Daniel, Verse Eight, we read where he prays: "*O Lord, to us belongeth confusion of face, to our kings, to our princes, and to our fathers, because we have sinned against thee.*" And Verses Ten and Eleven state: "*Neither have we obeyed the voice of the Lord our God, to walk in his Laws, which he set before us by his servants, the prophets. Yea, all Israel has transgressed thy Law, even by departing, that they might not obey thy voice; therefore the curse is poured upon us, and the oath that is written in the law of Moses, the servant of God, because we have sinned against him.*"

The Prophet Daniel understood what the problem was. He knew that Israel was covenant bound to obey and honor the laws and commandments of the Lord. Daniel could very well have been very critical of the Babylonians during his day, but he realized that they were not the problem. The problem lay with the Israelites and their refusal to honor and obey the Lord.

Today we see the rise of communism as a threat to our Christian way of life, and yet, without financial help from many of the Christian nations, and especially from America, the communist Empire could never have become a power to reckon with. We have given the Soviets not only economic aid, but all sorts of military supplies and food. You name it, and we've given it to them. This is a strange paradox, but it is the Lord's way of giving us into the hands of robbers and spoilers once again. Why? Because we, His people, have sinned against Him.

As we move closer to the Day of the Lord, we are told by the Apostle Paul that perilous times will come as wickedness will increase among God's people, Israel, as we turn farther away from His laws. As we look about us and see the spoilers and robbers busy about their task which the Lord has appointed them to do, I am reminded of the words of David, as found

in the Thirty-seventh Chapter of Psalms, where we read: *“Fret not yourselves because of evildoers, neither be thou envious against the workers of iniquity. For they shall soon be cut down like the grass, and wither like the green herb. Trust in the Lord and do good: so shalt thou dwell in the land, and verily thou shalt be fed.”*

Today as we see the workers of evil – these spoilers – actively seeking the overthrow of America, we find it difficult to remain still. Of course, we are not to just sit idly by, but are to be sharing God’s Word and informing our people that we must obey the Lord our God. Today millions of our people have little or no time to attend church. They are so busy with the things of this world. This is true throughout all of the Israel nations. Millions of Israelites today are lukewarm, and the Lord warned his followers that He would rather they be hot or cold than lukewarm. This is the message to the church at Laodicea, as described in Revelation 3:14-19.

That America needs to repent of her sins is obvious, and this must begin with the true church of Christ before the Lord will move against the spoilers and robbers. Today the situation does not look very promising as we see evil and corruption spreading their deadly poison. However, let us remember that these things must come to pass before the coming of the Lord who will cleanse the Kingdom of the Robbers and Spoilers. The prophet, Isaiah, looking down the corridor of time, makes this tremendous prophecy concerning the Glorious Kingdom which may be closer at hand than we think.

We read of this in Isaiah 60: 2 which states: *“For behold, the darkness shall cover the earth, and gross darkness (i.e. spiritual darkness), but the Lord shall arise upon thee, and his glory shall be seen upon thee. And the nations shall come to thy light, and kings to the brightness of thy rising. (Verse Fifteen) Whereas thou hast been forsaken and hated, so that no man went through thee, I will make thee an eternal excellency, a joy of many generations (or a joy to all ages, Moffatt Translation). Verse Eighteen “Violence shall no more be heard in thy land, wasting nor destruction within thy borders; but they shall call thy walls*

*Salvation (i.e. protection) and thy gates Praise.”*

When this comes to pass the Spoilers will be removed from God’s Kingdom people, Israel – the peoples of Anglo-Saxondom – and then that for which Christendom has been praying for over 1900 years will become a reality upon the earth.

*“Thy Kingdom come. Thy will be done in earth, as it is in heaven.”* Matthew 6:10

\* \* \* \* \*

### **IT’S SHOCKING! HIGH SCHOOL KIDS PLACE ALCOHOL AND DRUGS ABOVE FAMILY AND RELIGION:**

American high school students actually value recreation, sex, alcohol and drugs above family, religion and school, shocking new research shows.

“TV, football, movies, sex, alcohol and drugs are at the top of things high school students like to do.” Said Dr Judith Bazemore, a school principal in Spartanburg, S.C., who headed the study.

“The results of the research were based on a survey of 172 high school students, aged 15 through 18 in grades 10 through 12 at a high school in Spartanburg.

“Blacks and whites, males and females, and all ability levels were equally represented. The study was published in the quarterly Education. Here’s how students listed various activities in order of importance:

- \* Entertainment – watching TV, sports and movies, parties, listening to music.
- \* Socializing with people.
- \* Miscellaneous – mainly sleeping, eating.
- \* Work – fixing car, cooking, etc. – rarely salaried work.
- \* Travel – mostly to the beach.
- \* Forbidden fruit – sex, alcohol and drugs.
- \* Self-improvement – reading, hairstyling etc.
- \* Material possessions – shopping, spending money.
- \* School.
- \* Religion.
- \* Family.

\* \* \* \* \*

**CONFERENCE TAPES:** At this time we have not transferred the entire conference program from our 7" reels to cassette tapes but hope to have them ready by next month. Sorry for the delay. Please bear with us.

We have recently put on the payroll one of the ladies in the Church to help expedite the mail, tape duplication, and other office work which kept piling up. It was more than Audrey, my wife, could handle, and so we are pleased to have Jean Sullivan helping us with the office work. We converted two of our bedrooms into office space, and the family room in the basement is used for tape duplicators and other office equipment. The rooms in our Church building are all needed for Sunday school classes, so that it is necessary to have our offices at home. This keeps us close to our work, anyway!

**BAPTISMS AND DEDICATIONS:** Last Sunday we were pleased to baptize three of our young people into Jesus Christ. What a thrill it is to have our children give their lives to Christ! We were also pleased that one of our younger families had their two youngest children (ages one year and three months) dedicated to the Lord. It is always a wonderful experience to participate in these special occasions.

**PRAISE THE LORD FROM WHOM ALL BLESSINGS FLOW:** I want to thank each one of you for your gifts and prayers which make it possible for us to reach out to new people over the radio and in print. As I write this letter, and think of the support that you folks have given, (some of you have been very generous) I am reminded of the words of the Apostle Paul in the Ninth Chapter of Romans which I used in my sermon during yesterday's morning message.

In Verses One through Three, speaking to the believers, Paul says: *"I say the truth, I lie not, my conscience also bearing witness in the Holy Spirit, that I have great heaviness and continual sorrow in my heart. For I could wish that I myself were accursed from Christ for my brethren, my kinsmen according to the flesh."*

It is the Holy Spirit which brings such conviction and concern for others in the sense which Paul writes. And so it is with those who want to share the Gospel of Jesus Christ and His coming Kingdom with others. The Lord Jesus Christ richly bless each of you, and supply your needs.

We, here at Christ's Gospel Fellowship, also feel burdened to share with our kinsmen. It is part of our missionary outreach, and it is made possible by you dear folks who receive our literature and cassette tapes. And, by the way, we are now sending out approximately 80 tapes, twice monthly, throughout the nation. We're so thankful that our tape ministry is growing.

Again, our thanks, and we pray that the Lord Jesus Christ will bless and keep you.

Your brother in Christ,

\* \* \* \* \*
